

Life is full of possibilities. To find your own way, you need to take the journey of self-discovery.

The nonprofit educational organization Altemus offers young people a unique opportunity to take time out and reflect on who they are, what they want and need to do, where they want to go and how to get there. Join trainers, coaches and peers from around the world for a retreat, training and pilgrimage on the Camino Santiago de Compostela. Deepen your self-awareness, clarify your personal vision, set goals, make an action plan and learn valuable soft skills.

This summer have an Altemus experience and gain something meaningful for your life's journey!
